

INDIAN INSTITUTE OF MANAGEMENT CALCUTTA

TRANSITIONING TO PRODUCT MANAGEMENT

-  Programme Director: Prof. Priya Seetharaman
-  Programme Dates: September 19 - 22, 2024
-  Programme Venue: MDC, IIM Calcutta

INTRODUCTION

In the last decade, Product Management has become a primary functional role in technology organizations. Several firms like Google, Apple, Adobe, Tesla, have grown to great heights due to a primarily product-management-driven culture. Product Management is so central to success that even erstwhile engineering-centric organizations like Cisco and Oracle have fully embraced Product Management and have made deepened the role in their product design and delivery process.

Product management in general, and in technology industry in particular, is considered both a science as well as an art. As a discipline, product management does not have well defined boundaries, and there is great variation in the definition of this role across different organizations. No wonder this role is often equated to a “mini CEO”, given its cross-functional span and overall responsibility for making a product successful - very similar to the role of a CEO. The Product team is increasingly playing a key role in making product strategy decisions and driving the business outcomes of the organization, transitioning from the sole technology- and engineering focus that they had earlier.

Adding to its appeal are the learning opportunities that can potentially fast-track one’s career progression, not just within but also outside the organization. Product Management roles gear up many people to embark on even more responsible roles and endeavours such as entrepreneurship. Increasingly, organisations are looking for high-performing individuals from technology, engineering, and marketing functions to take on product management roles.

This Programme is designed to provide deeper insights into the expectations from a product manager, along with practical tools and frameworks, using real-life case studies, to better prepare individuals from diverse backgrounds to pitch for and transition to the role of a Product Manager.

OBJECTIVES

Adding to its appeal are the learning opportunities that can potentially fast-track one’s career progression, not just within but also outside the organization. Product Management roles gear up many people to embark on even more responsible roles and endeavours such as entrepreneurship. Increasingly, organisations are looking for high-performing individuals from technology, engineeri

PEDAGOGY

Delivery would be through a balanced mix of experience sharing, classroom lectures, discussions, case studies, and reflections on real-life corporate examples. Lecture inputs are primarily drawn from practical experiences in the industry. Discussions will be experiential and interactive through individual and/or group presentations, role plays, and/or in-class exercises.

WHO MAY ATTEND

This Programme is designed for aspiring product management professionals seeking to fast-track their career by undertaking the highly entrepreneurial discipline of product management.

The Programme invites individuals with more than 3 years of experience in technology industry or in technology roles, from diverse functions such as project, Programme or people management, technology development/engineering, architecture, testing/validation/DevOps, etc.

KEY TOPICS

The Programme intends to cover broad working knowledge of the role of the product manager, frameworks used to define product strategy, tools used in day-to-day execution, covering the following areas:

- Demystifying product management
- Key concepts in product management
- Developing a product strategy
- Creating Product Roadmaps
- Frameworks for strategic decision making and execution
- Product metrics - determination and analysis
- Multiple case studies of real-life products

PROGRAMME DIRECTOR

Priya Seetharaman is a Professor of MIS at Indian Institute of Management Calcutta. At IIM Calcutta she teaches courses on High-Tech Product Management, Digital Transformation, Digital Business Models, IT Strategy and Governance, etc. She has extensively taught in degree and diploma programmes as well as in executive education programmes. Her research interests include behavioural aspects of digital product design, technology adoption and impacts across levels; IT governance and strategy and digital transformation. Her research has appeared in journals such as Journal of MIS, Information & Management, Technology Forecasting and Social Change, IJIM, Environment and Planning, and Computers in Human Behaviour. She is currently the Editor in Chief of Decision, the IIM Calcutta - Springer journal and has in the past served as the curations editor of MIS Quarterly

PROGRAMME FACULTY

Along with faculty members of IIM Calcutta, this MDP will be supported by senior practitioners from the product management space including:

Amit Nigam is currently the CEO of QJobs, a blue-and-grey-collar hiring platform. Qjobs is a group company of Qness Corp (NSE:QUESS), which is India's largest employer by number of employees. Prior to Qjobs, Amit was the Vice President of Products at redBus, a MakeMyTrip group company. He comes from a product management and entrepreneurial experience of about 20 years in B2C e-commerce and B2B SaaS. Amit founded an internet startup and scaled to all major Indian cities, before successfully exiting the business through an acquisition by TVS Group. He holds 4 patents in USPTO as a primary innovator.
